

1-866-829-1086 Southwest Airlines Beijing Office

Southwest Airlines does *not* have an official corporate, sales, or customer service office in Beijing, China.

Southwest Airlines is a U.S.-based airline headquartered in **Dallas, Texas**, and it **does not maintain a staffed local office or ticketing office in Beijing or elsewhere in China**.

Official reservations, customer support, and service are provided through Southwest's central global channels (website, call centers, and app) rather than through any local office abroad. ([Southwest Airlines](https://www.southwest.com))

What You May See Online

- Some third-party flight/airport directories may list “**Southwest Airlines PEK terminal info**” in connection with **Beijing Capital International Airport (PEK)** and display a phone number, but these references **do not represent an official Southwest Airlines office** — they are generic terminal listings, not Southwest-operated facilities. ([Terminal Find](#))
- Listings in Chinese business directories that mention “西南航空 (*Southwest Airlines*)” with a phone number and location are usually unverified or user-generated entries and not an official airline office. (biz.huarenbang.us)

Southwest and Beijing Airport

- Even if a travel information site shows Southwest associated with Beijing airport terminal lists, this **doesn't imply a staffed Southwest office or counter there**. It often includes the airport's general contact details. ([Terminal Find](#))
- Southwest Airlines *generally does not fly regularly to/from China* on its own network; instead, any connectivity (e.g., through partners) is arranged via booking systems and partner airlines. ([Southwest Airlines](https://www.southwest.com))

How to Contact Southwest from Beijing

Since there's no Southwest office in Beijing, you'll need to use official global support channels:

- **Official Southwest Website:** Manage reservations, check flight status, or get support via <https://www.southwest.com>. ([Southwest Airlines](https://www.southwest.com))
- **Southwest Customer Service Phone (U.S.):**
 - **+1 800-435-9792** — Toll-free U.S. support line (international calling charges may apply). ([Southwest Airlines](https://www.southwest.com))

 **Tip:** For flight bookings or itinerary help from China, online tools or official customer service channels are the most reliable way to get assistance, since no local Southwest office exists in Beijing.

Would you like **Southwest's official customer support numbers formatted for dialing from China**? I can list those too.
