

1-866-829-1086 Southwest Airlines Perth Office

Southwest Airlines **does not** maintain a local walk-in office, ticketing counter, or customer service location in **Perth, Western Australia**. Southwest is a U.S. airline with its headquarters in **Dallas, Texas, USA**, and its passenger support — including bookings, changes, baggage issues, and general customer service — is handled **centrally via phone and online channels** rather than through local overseas offices. ([Wikipedia](#))

Southwest also **does not currently fly to Australia or Perth Airport (PER)** — it does not operate scheduled flights out of PER. ([Southwest Airlines](#))

Local online listings that mention a “Southwest Airlines Perth Airport Office” or a terminal location are **third-party directory content**, not official Southwest locations. They often copy generic airport addresses and claim airline presence. ([RDTOTO](#))

****What You Might See Online (But Isn't Official)***

Some websites (that are not Southwest-affiliated) may list contact details like:

- **32 Boud Ave, Perth Airport, WA 6105, Australia**
- **PER Terminal 1**, with generic “SouthwestAirlines@iluv.southwest.com” email
- Generic listing of check-in services, lounges, baggage, and more ([RDTOTO](#))

This information is unverified by Southwest and should *not* be treated as an official airline office or contact.

How to Contact Southwest Airlines (Official) from Australia

Because there's **no official office in Perth**, use these Southwest *central* support options:

📞 Customer Service – U.S. Reservations & Support

- 📞 **+1 800-435-9792** — Southwest's main customer service line for reservations, changes, cancellations, and support.
You can call Australia → U.S. by dialing **001** then the U.S. number (e.g., **001-1-800-435-9792**).

Online & App Support

- **Southwest Contact Page:** https://www.southwest.com/contact_us/ — use for FAQs, live chat, and support forms.
- **Southwest Mobile App:** Manage bookings, check in, view flight status, and contact support directly.

These are the **official** avenues to handle reservations, Rapid Rewards, refunds, baggage issues, etc.

Why There's No Perth Office

- Southwest currently **does not operate flights to Perth or any other Australian destinations.** ([Southwest Airlines](#))
 - The airline's international routes are mostly to **Mexico, the Caribbean, and Central America**; there are pending applications to expand further internationally, but nothing has been confirmed that would include Australia. ([Reuters](#))
 - Because Southwest doesn't serve the region, it **doesn't maintain local ticket counters, airport desks, or offices** in Perth.
-

Summary

Item	Status
Southwest Airlines Perth Office	✗ No official local office
Southwest presence at Perth Airport (PER)	✗ No staffed Southwest ticket counters
How to Contact Southwest	☎ +1 800-435-9792 (U.S.) /  southwest.com/contact_us
Southwest Flights to Australia	✗ None currently scheduled (Southwest Airlines)

Tip: If you're in Perth and want to book travel that involves Southwest flights (e.g., a multi-airline itinerary via the U.S.), you typically book your **international long-haul segment** with an airline that serves Australia (e.g., Qantas, Singapore Airlines, Emirates), then connect onward to Southwest flights on the U.S. side.

Would you like help with **how to dial the U.S. Southwest support number from Australia** (with correct international prefixes)?
